Product Functions

Galvanic current

Galvanic current under 1mA effectively thoroughly collects dirts inside of pores and makes inside of pores clean

LED Light Therapy

RED Led with 600nm boosts improvement of skin elasticity by blood circulation and re-generation of new skin cell

Ultrasonic wave

Ultrasonic wave of 1million times wave per second removes dirts at skin and boosts skin elasticity with accelerating composition of collagen and elastine

Silicone Brush

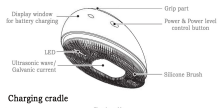
Micro-Vibration of 10,800 times wave per minute cleanly cleanses make-up residues

Micro-Vibration

Total 1,000pcs of silicon brushes which consist of three different diameter perfectly cleanse skin and Oval-shape design effectively cleanses facial flexion parts (T-Zone, Butterfly Zone)

Components

Device



Charging cradle

Cleansing

* It is recommended to use once a day
[Using the device twice or more a day can make skin highly sensitive.]
* Use a rich foaming cleanser (Viveca Bubble Cleanser) suitable for your skin type.

Before Cleansing

1st. Wet your face with lukewarm water.
2nd. Make rich foam with your cleanser and apply foam onto your face.

How to use device

1) Gently grab the device and push the power button for appx. 2 seconds.
2) After the "beep~" humor sound, you can see the LED light on, and the ultrasonic wave starts working.
3) Grab the galvanic/massage contact part by hand and put the ultrasonic wave/galvanic head on the skin (face) at the same time. Then, galvanic and vibration massage will start working.
4) All of the LED therapy, ultrasonic wave, galvanic cleansing, and vibration massaging start working together.
5) To choose the intensity of vibration massage, push the power button shortly (appx. 1 sec) and the device makes humor sound. - for each of three intensity level
6) Humor sound is "beep beep beep" for Level 3, "bee beep" for Level 2, "beep" for Level 1

Battery Charging

*** Please charge the device before using**

*** Please use the cable inside of box for charging and it is recommended to use charging adapter of 5V 2A**

1st. Please place the device at charging cradle and connect USB charging cable with charging adapter

2nd. Please connect charging adapter with electric outlet

3rd. While charging battery, lamp turns into red color and lamp turns into green color in full-charging.

Charging Status

Battery Signal of Lamp Colors

- Red → Device is out of battery so need to charge battery
- Yellow → Need to charge the battery after using the device
- Blue → Battery is fully charged

1) Please hold grip part of the device and use the device at facial skin
2) If the device doesn't work, please contact to customer center

Q. The device doesn't work while using the device

1) The device is automatically turned off after 2minutes so please turn on the device again

Product Specifications

Product Name :	Ultrasonic wave facial cleanser
Package Items :	1 device, 1charging cradle, 1 USB charging cable
Size Spec :	Device 93(W) * 45(D) * 44(H)mm Charging cradle 130(W) * 130(D) * 63(H)mm
Weight :	Device 142g / Charging cradle 128g
material :	ABS, PC, Steel, etc.
Power Supply :	DC 3.7V, 1,000mAh/Lithium polymer charging battery
	Duration of use : Appx 100min
	Duration of charging : Appx 300m
Adapter :	DC Power Supply (AC/DC Adapter)
	Charging Adapter 5V 2A (Recommended) - seperately sold
Waterproof :	Device : IPX8 / Charging cradle : Not Applied
Brand :	VIVECA
Design&Manufacturing :	Republic of Korea
Manufacturing Date :	As indicated on the product

Design and standard can change for quality improvement without advance notice
